---

## Overview

Creative and growth-driven Frontend Developer with a strong background in React, Angular, TypeScript, and UI/UX design. Experienced in building scalable, performant interfaces and collaborating across functions to deliver production-ready features. Passionate about building meaningful user experiences and exploring cutting-edge tech like Next.js, GraphQL and Web3.

## Skills

**Languages & Frameworks:** React.js, Angular, Next.js, TypeScript, JavaScript, Redux, Zustand, Node.js, Express, C++

**Styling:** Tailwind CSS, CSS3, HTML5

**Design:** Figma, Canva, UI/UX Principles, Prototyping

**Tools:** Git, Vercel, Netlify, WordPress, Hostinger

**Databases:** MongoDB, PostgreSQL (basics)

**Others:** REST APIs, Socket.io

## Work Experience

### Junior Frontend Developer

Trellissoft Engineering • Full-time • Aug 2023 – Feb 2025

- Spearheaded the LMS platform development with focus on Assessment, Multitenancy, User, Courses & Classes modules using Angular.
- Developed reusable components and implemented features like infinite scrolling, filtering, sorting, pagination, and skeleton loaders, reducing data load times by ~30%.
- Built key features: multitenancy support, filters & sorters, assessment weightage calculation logic, CRUD for Assessments, and responsive tables with pagination.
- Collaborated with cross-functional teams (backend, QA, UI/UX) to ensure seamless end-to-end feature delivery.
- Participated in code reviews, debugged and optimized complex UI flows, and regularly contributed to better design patterns and reusable components.
- Took part in React, Angular, and UI/UX training, helping teammates debug and develop modules efficiently.
- Actively supported coworkers, demonstrating leadership and a team-first mindset.

### UI/UX Intern

Fluxatic Globals • Internship • Aug 2022 - Oct 2022

- Gained hands-on experience in Figma, prototyping, and modern UI/UX principles.
- Learned React fundamentals and collaborated in wireframing and prototyping a mental health app, which won a design competition.
- Took initiative and contributed ideas, task ownership, and leadership during team sessions.
- Project link: Mental Health Project (Figma)

### Web Designer Intern

Brushflicks • Oct 2021 – Nov 2021

- Designed and launched a responsive e-commerce website using WordPress and Hostinger.
- Ensured mobile-first design, SEO optimization, and smooth user navigation across product categories.
- Learned fundamentals of hosting, deployment, and client-centered web design.

## Selected Projects

- **Kartana (Ongoing):** Hybrid e-commerce platform (Web2 + Web3) using Next.js, Tailwind, Redux, GraphQL, Node.js, MongoDB, Razorpay, and MetaMask integration.
- **HRMS :** Angular-based HR system with modules for attendance, roles, and user management. Built during tenure at Trellissoft.
- **Portfolio Website:** Animated and interactive personal site using React/Next.js, Tailwind CSS, and custom UI interactions.
- **Chat App:** Real-time messaging platform using React, Zustand, and Socket.io with login and room-based chat features.

## Education

Bachelor of Engineering (B.Eng) – Agnel Institute of Technology and Design

Computer Science • 2019 - 2023 • CGPA : 8.96 / 10
