Overview

UX focused Frontend Developer with 1.5+ years of experience building user-centric web applications using React, Angular, and TypeScript. Strong experience in component-driven architecture, performance optimization, and collaboration with design teams. Focused on building clean, responsive, and intuitive user interfaces with strong attention to UI/UX detail.

Skills

Languages & Frameworks: React.js, Angular, Next.js, TypeScript, JavaScript, Redux, Zustand, Node.js, Express, C++

Styling: Tailwind CSS, CSS3, HTML5, GSAP, Framer

Design: Figma, Canva, UI/UX Principles, Prototyping

Tools: Git, Vercel, Netlify, WordPress, Hostinger

Databases: MongoDB, PostgreSQL (basics)

Others: REST APIs, Socket.io

Experience & Projects

Frontend, UI & UX Projects

Feb 2025 – Present

- Built a full-stack e-commerce application using Next.js, GraphQL, Node.js, and MongoDB with product browsing, cart, and checkout flows focused on UX, usability, and performance ([Kartana](#)).
- Designed and developed a responsive real estate landing page using React and GSAP with smooth animations and conversion-focused UI ([Trrranest](#)).
- Developed a real-time [chat application](#) using React, Zustand, and Socket.io with authentication, room-based messaging, and live communication features.
- Built internal [HRMS](#) modules using Angular and NgRx for attendance tracking, role management, and user administration during tenure at Trellissoft.
- Conducted UX case studies in Figma focused on identifying user flow issues, analyzing problems, and proposing improved interaction solutions using wireframes and prototypes.
 - IRCTC eCatering Post-order UX Redesign ([Case study](#))
 - Alongo UX Case Study ([Case study](#))
- Designed and refined a personal frontend portfolio showcasing UI-focused development and responsive component-based architecture ([Portfolio](#)).

Junior Frontend Developer

[Trellissoft Engineering](#) • Full-time • Aug 2023 – Feb 2025

- Led development of LMS modules including assessments, multitenancy, and user management using Angular in an enterprise environment.
- Built reusable components and improved performance using pagination, filtering, and lazy-loading (~30% improvement).
- Delivered features such as dynamic filtering/sorting, assessment logic, CRUD operations, and responsive tables.
- Collaborated with backend, QA, and UI/UX teams to deliver end-to-end features in an agile setup.
- Contributed to debugging, code reviews, and maintaining scalable frontend architecture.
- Participated in training on React, Angular, and UI/UX; supported team development and issue resolution.

UI/UX Intern

[Fluxatic Globals](#) • Internship • Aug 2022 - Oct 2022

- Utilized Figma to design user interfaces based on modern UI/UX principles.
- Collaborated in ideation and design tasks during team sessions.
- Designed wireframes and prototypes for a [mental health app \(Figma\)](#) that won a design competition.

Education

Bachelor of Engineering (B.Eng) – Agnel Institute of Technology and Design
Computer Science • 2019 - 2023 • CGPA : 8.96 / 10
